

Press Release

The Anytown Fire Department and the Anytown Community Fire Safety Coalition

The Anytown Fire Department has enlisted the help of the public and has formed a Community Fire Safety Coalition (CFSC) comprised of members of our community. The CFSC will work in conjunction with the Anytown Fire Department in an effort to identify areas that present fire safety risks to the community. Once these risks are identified, the CFSC will take steps to help educate and inform to reduce or eliminate potential fire risk impact on the community. The newly formed CFSC has begun organizing and will be making announcements on its proposed efforts by **6 / 23 / 2011**. Fire Safety is a critical issue that faces all cities and counties across the nation. By enlisting the help of a coalition, it becomes a community effort and not the sole initiative of one public safety entity. The CFSC, along with the Anytown Fire Department, will educate and inform citizens about what they can do to protect themselves and their families during a fire emergency.
